- **Development Tools:** Git, GitHub, GitHub Pages

WORK EXPERIENCE

Socket9 Co., Ltd. | Senior UI Developer

Nov 2018 – Apr 2026

- Led frontend and web platform development across 20+ enterprise and consumer-facing web applications spanning financial services, logistics, government, retail, and digital platforms.
- Developed and supported WordPress and WooCommerce-based solutions in selected projects, applying frontend customization and PHP-based adjustments when required.
- Designed and delivered large-scale Angular-based back-office systems, operational dashboards, and internal business platforms for Nathalin Group, Asset World Corp (AWC), and Otteri, supporting finance, operations, and internal workflows.
- Built scalable, reusable UI components and modular frontend architectures using Angular, React, Next.js, and TypeScript, significantly improving codebase maintainability and development efficiency.
- Translated high-fidelity UI/UX designs from Figma, Zeplin, and Adobe XD into responsive, production-ready web applications with strict design fidelity and cross-device compatibility.
- Delivered enterprise and public-sector web applications including the Department of Intellectual Property (DIP), TrueMoney, BYD, DEPA COVID-19 Mapping Platform, and SnapPink x AOT.
- Collaborated with business analysts, UX/UI designers, QA teams, and frontend developers to clarify requirements while ensuring high-performing and user-friendly interfaces across complex systems.

MFEC Public Company Limited | WordPress UI Developer

May 2018 – Oct 2018

- Developed and delivered an e-commerce website for FN Furniture using WordPress and WooCommerce.
- Built responsive web interfaces and customized WordPress themes using HTML5, CSS3, SCSS, and PHP.
- Translated UI designs into production-ready web pages with cross-browser and cross-device compatibility.
- Collaborated with designers and developers to support website enhancements, testing, and deployment activities.

OfficeMate Co., Ltd. / Cenergy Innovation Ltd. (Central Group) | Web UI Developer & Senior UX/UI Designer

Nov 2013 – Apr 2018

- Developed websites, promotional microsites, and digital campaigns for multiple Central Group business units, including OfficeMate, Central, Robinson, ZEN, Supersports, Power Buy, Tops, and The 1.
- Built, maintained, and enhanced WordPress websites, including the Central Embassy website.
- Developed responsive frontend templates using HTML, CSS, JavaScript, and jQuery, collaborating with backend developers for system integration.
- Developed HTML EDM Campaigns, landing pages, and marketing assets, ensuring cross-browser and email compatibility.

MAM Enterprise | Web Developer

Sep 2012 – Oct 2013

- Developed WordPress-based corporate websites using HTML, CSS, and PHP.
- Built SEO-friendly and responsive UI structures.

CyberQuote (Thailand) Co., Ltd. | Software Developer

Oct 2011 – Aug 2012

- Supported backend data operations and automated scheduled jobs for FX trading systems.
- Maintained system stability and data flow for financial applications used by banking clients.

Exa Web Solutions | Web Developer

Apr 2011 – Oct 2011

- Developed corporate websites and microsites using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and UI consistency.
